PREFACE

HOW CINAHL BEGAN

Although nursing journal publishing began around the turn of the century, until 1961 there was no easy way to identify current articles in the growing number of journals in the field. Three hospital librarians who were indexing the literature for their own nursing staffs decided to pool their efforts to publish one standardized publication. In 1961, Mildred Grandbois, library director of the Glendale Adventist Medical Center, Glendale, California, published the first edition of the CUMULATIVE INDEX TO NURSING LITERATURE (CINL), containing indexing for 1956-1960 from 16 journals.

CINAHL TODAY

The CUMULATIVE INDEX TO NURSING & ALLIED HEALTH LITERATURE (CINAHL) is a comprehensive and authoritative index to periodical literature in English for nurses, allied health professionals, medical librarians, and others interested in health care issues. Approximately 300 nursing, allied health, and biomedical journals are regularly reviewed and indexed for inclusion in each year's five bimonthly issues and cumulative bound volume. Virtually every English-language nursing journal is indexed along with publications of such organizations as the American Nurses' Association and the National League for Nursing. Primary journals in thirteen allied health fields are also indexed:

- Cardiopulmonary Technology
- Emergency Services
- Health Education
- Medical/Laboratory Technology
- The Medical Assistant
- Medical Records
- Occupational Therapy

- Physical Therapy
- The Physician's Assistant
- Radiologic Technology
- Respiratory Therapy
- Social Service in Health Care
- Surgical Technology

Pertinent articles from the biomedical, management, behavioral science, education, and popular literature are also indexed. CINAHL also lists hundreds of new books from 30 major health care publishers. In addition, CINAHL indexes almost 20 journals in health sciences librarianship.

All materials are indexed according to CINAHL's Subject Heading List, which is tailor-made for nursing and allied health. Each year terms are added as needed to provide immediate and direct access to indexed materials. The structure of this thesaurus is based on the widely used National Library of Medicine's Medical Subject Headings (MeSH).

ELECTRONIC INDEXES

CINAHL is available as an online database via database vendors BRS, DIALOG, and Data-Star. Indexing from 1983 to the present is available in this format, as are abstracts from approximately 85 nursing and allied health journals. User-friendly search services for health professionals are available through BRS, DIALOG, and via gateway services and front-end software. CINAHL is also available on CD-ROM, Compact Disc-Read Only Memory through Silver-Platter Information Services.

CRITERIA *for* SELECTION *of* MATERIALS

NURSING and ALLIED HEALTH JOURNALS

Articles from nursing and allied health journals that meet the following criteria:

- Original, substantive signed and selected unsigned articles.
- Editorials of national and international scope and interest.
- Biographies and obituaries with substantive background materials. Reports about outstanding nurses and allied health professionals.
- Reports of national and international organizations and conventions that have comprehensive information or content.
- Important national legislation regarding basic changes pertinent to health professionals or regarding major health plans.
- Poetry, if considered pertinent.

RELATED JOURNALS

Articles from medical science journals, management journals, and from selected popular periodicals with nursing or allied health content, or otherwise of interest to professionals in those fields.

OTHER PUBLICATIONS

Serials and pamphlets published by the American Hospital Association, Division of Nursing; the American Nurses' Association; the National League for Nursing; and the United States Department of Health and Human Services, Division of Nursing.

NEW BOOKS

New books submitted by publishers (listed by CINAHL Subject Headings).

MATERIALS *not* INDEXED

Types of materials not indexed:

- Information of dated or transient nature, e.g., news items, notices of meetings, elections, committee activities.
- Abstracts, briefs, summaries.
- Financial reports, resolutions and bylaws.
- Editorials of local interest; letters to the editor.
- Promotional or parochial articles.

SEARCHING CINAHL EFFECTIVELY

LOOKING for ARTICLES on SPECIFIC TOPICS

Locate the "yellow pages" section in the latest bound volume and/or in the January/February bimonthly issue of the current year. This is the official "Subject Heading List" for CINAHL. All subjects used for indexing are listed here.

Find the subject in this alphabetic list of subject headings. Note the cross references. "See" references lead from subject headings not used to those used. For example, when the topic Cancer is checked in the Subject Heading List, a cross reference, "See NEOPLASMS," indicates that articles on this topic are indexed with the subject NEOPLASMS, and not cancer. "See also" references suggest additional headings. Valid headings are in all capitals.

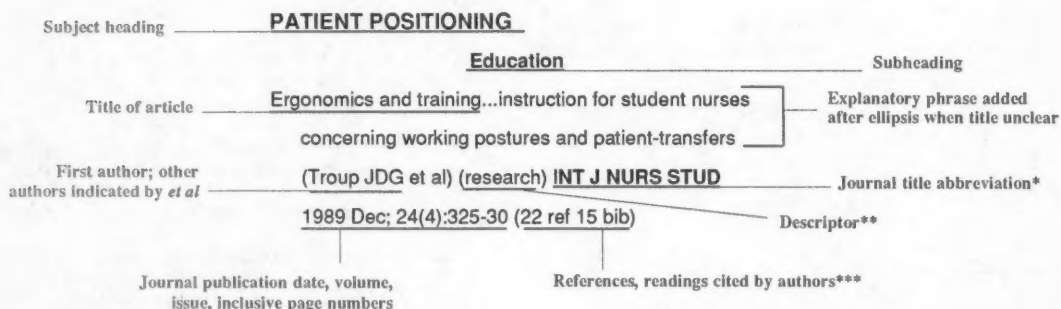

Find the heading NEOPLASMS in the "yellow pages." Below the subject an alphanumeric appears, C4+. This refers you to CINAHL's "tree structures," a listing of subjects by category. This is found in the "yellow pages" following the alphabetic listing. The C4 "tree" contains all subject headings related to neoplasms. Check this list to see if some more

specific heading is appropriate to the search, since indexers assign the most specific subject heading possible. A search for articles on breast cancer will be more productive with the heading BREAST NEOPLASMS than with NEOPLASMS.

Indexers assign as many subject headings as are necessary to provide easy access to the information. Since subject headings are added and changed from year to year to reflect trends and evolving concepts, it is best to consult the Subject Heading List for each year searched.

With the subject heading in mind, move to the subject section in the white pages, where subject headings appear alphabetically. Citations are listed underneath. Subheadings, such as "administration" or "psychosocial factors," assist in the search. Start searching in the most current bimonthlies and work backward to earlier volumes.

The following diagram explains the bibliographic citation:

Citation partially simulated

* See preliminary pages of index for complete journal titles. ** Descriptors indicate the form of an article (editorial, research, etc.) or the presence of some sample form or data (pictorial, statistics, etc.). *** "References" (ref) refer to the footnotes listed by author(s); "bibliography" (bib) is a list of additional readings.

LOOKING for ARTICLES by AUTHOR

Search alphabetically in the "author" section of the white pages in each volume. The maximum number of authors listed for each article is three. Additional authors are indicated by *et al*. The complete bibliographic citation appears only under the name of the first author, with "see" references from the second and third author to the full citation.

LOOKING for BOOKS on SPECIFIC TOPICS

The last section of the white pages lists new books. This section is searched by subject heading the same way articles are searched. Book citations list the author(s), book title, publisher, edition, date of publication, and number of pages.

Multiple copies of these instructions may be photocopied for educational purposes. Copyright 1988 Cumulative Index to Nursing & Allied Health Literature (CINAHL), Glendale Adventist Medical Center.

CINAHL SERVICES

SUBSCRIPTION SERVICE

Includes five bimonthly issues plus hardbound cumulation. Subject heading list included with Jan/Feb bimonthly and cumulation.

BACK VOLUMES

Bound volumes 1961-63: 1969; 1970; and 1972 to the present are available from CINAHL; all volumes are available in microfilm and/or microfiche from University Microfilms International (UMI), 300 N. Zeeb Rd., Ann Arbor, MI 48106, (800) 521-0600.

PUBLICATION SCHEDULE

The issue date (e.g., January/February) reflects the indexing time period. Publication occurs at the end of the following month, e.g., March for the January/February issue. **There is no November/December issue; indexing for these two months is published in the annual cumulation.** The publication schedule is as follows: Jan/Feb issue mailed end of March; Mar/Apr, end of May; May/Jun, end of July; Jul/Aug, end of September; Sept/Oct, end of November. The annual cumulation is mailed at the end of February of the following year.

Allow 4-6 weeks for delivery of current subscription. Claims for missing issues must be made within 90 days of shipping date; outside U.S. (Except Canada), 150 days.

CINAHL ONLINE

Indexing from January 1983 to the present is available through database vendors DIALOG (file 218), BRS (access code NAHL), and Data-Star (label NAHL). Abstracts from selected journals available online.

SUBJECT HEADING LIST/ONLINE SEARCH GUIDE

Before you go online, consult the annually updated *Subject Heading List* and the *Online Search Guide* for BRS, Data-Star, and Dialog. Available separately or as a set from CINAHL.

CINAHL AUDIOVISUAL

"Diane Discovers the Red Books," slide/tape production that shows viewers how to use CINAHL effectively.

PREFACE

INTRODUCTION

The CINAHL Subject Heading List contains all the terms currently used to provide subject access in the **Cumulative Index to Nursing & Allied Health Literature**.

The reconstruction of the Subject Heading List in 1983 was a continuation of plans that culminated in computerized access to CINAHL in 1984. The most fundamental change made

was the addition of tree numbers to each heading; these numbers yield a hierarchical listing that is invaluable for both manual and computer searching.

The Subject Heading List is updated on an annual basis. The changes are described in the *Guide to Subject Heading Changes* in this publication.

ALPHABETIC LIST

The Alphabetic List contains all CINAHL subject headings and their cross references arranged in alphabetical order. Citations will be found in the subject section of CINAHL only under the headings that appear in large type. All other entries are cross references leading the user to authorized CINAHL headings.

Cross references are of two types:

- 1) *See* references refer from terms not used to valid CINAHL headings. In most cases, the term referred from is synonymous to the preferred term. The references appear in lower case and the preferred CINAHL term in upper case, e.g.,

Bonding, Parent-Infant *see* **PARENT-INFANT BONDING**

The "x" symbol listed under a valid CINAHL heading indicates a backwards *see* reference, e.g.,

PARENT-INFANT BONDING
x Bonding, Parent-Infant

- 2) *See also* references indicate related CINAHL headings which generally do not appear in the same tree, e.g.,

HOSPITALIZATION
see also
CHILD, HOSPITALIZED

The "XX" symbol indicates a backwards *see also* reference, e.g.,

CHILD, HOSPITALIZED
XX HOSPITALIZATION

Each heading is followed by one or more alphanumeric codes (tree numbers) which direct the user to the place(s) in the Tree Structure List where the term is to be found. A dollar sign (\$) preceding the tree number indicates either that the heading does not also appear in MeSH or that it appears in a different position within the MeSH tree structures. A plus sign (+) following the tree number indicates that there are additional terms indented under that heading in the tree structure.

Two different types of notes may appear in the thesaurus record:

- 1) The date identifies what year a term was added as a subject heading.
- 2) Scope notes provide brief definitions of headings that may be unclear and/or explain the use of subheadings.

The following is a complete sample entry from the Alphabetic List:

TRANSFER, INTRAHOSPITAL

\$N2.421.353.485.867

1983

Formal transfer of an inpatient, usually during a single hospitalization, from one nursing care unit, clinical service, or attending physician to another.

x Intrahospital Transfer

XX **TRANSPORTATION OF PATIENTS**

TREE STRUCTURES

The tree structures list all the CINAHL headings in a subject hierarchy. The trees are composed of 14 broad categories (e.g., Category A = Anatomy) most of which are divided further into subcategories (e.g., Subcategory A7 = Anatomy-Cardiovascular System). The CINAHL terms in each subcategory are arranged hierarchically according to their alphanumeric codes (tree numbers) from the most general to the most specific. Each CINAHL term appears in at least one place in the trees and may appear in as many additional places as are logically appropriate.

CINAHL indexers routinely use the most specific headings available to represent indexable concepts. For example, articles on nurse practitioners working with the elderly will be indexed only under the specific heading GERONTOLOGIC NURSE PRACTITIONERS. They will not also appear under the general term NURSE PRACTITIONERS. The CINAHL user who neglects to look up the heading NURSE PRACTITIONERS in the trees may easily miss the more specific, relevant headings indented underneath it.

CINAHL has made limited see also references between headings that appear in the same tree, consequently

examination of the tree structures is the most accurate way to identify many specific headings of interest. Any CINAHL heading that has been assigned a tree number followed by a plus sign (+) should be looked up in the trees since there will be specific headings indented beneath it. CINAHL users may also consult the trees to find additional subject headings that express related concepts whether at the same level, or at higher or lower levels of specificity.

In the tree structures, each term is followed by a number that indicates its position in the hierarchy. It may also be followed by one or more additional numbers in smaller type that indicate other tree locations for the same heading. These cross reference tree numbers are truncated to the third level.

The trees also contain some terms that are designated (NON-CINAHL). These are included solely for the purpose of clarifying the logical structure of the tree. They are never used for indexing and do not appear in the subject section of CINAHL.

The following is a sample section from the tree structures:

SUBHEADINGS

TOPICAL SUBHEADINGS

There are 45 topical subheadings (or secondary headings) that can be linked to CINAHL main headings to increase the specificity of indexing. These subheadings help to group together articles on a particular aspect of a topic. Not all subheadings can be used with all main headings; for example, the subheading/prevention and control is meaningless linked to the main heading NURSING PROTOCOLS. The subcategories of main headings with which a particular subheading can be combined are identified in parentheses in the list that follows.

ABNORMALITIES (83) - Used with organs for congenital defects. (A, not A10-A12 or A16)

ADMINISTRATION - Used for administrative structure and management. (I2, L, N2-N4)

ADMINISTRATION AND DOSAGE - Used with drugs for dosage forms, routes of administration, frequency and duration of administration, quantity of medication, and the effects of these factors. (B6, D)

ADVERSE EFFECTS - Used with drugs, chemicals, plants, and manufactured products for undesirable reactions occurring in normal usage or accepted dosage. Also used for adverse effects or complications of diagnostic, therapeutic, anesthetic, surgical, or other procedures. (B6, D, E, F4, G3, H, J)

ANALYSIS - Used for the identification or quantitative determination of a substance or its constituents. Includes urinalysis, blood analysis, and cerebrospinal fluid analysis, chemistry or chemical composition of an organ or drug. (A, B, not B2, C4, D, G3, J)

ANATOMY AND HISTOLOGY (was ANATOMY) (83) - Used with organs, regions, and tissues for normal descriptive anatomy and histology. (A, not A11-A12)

ANTAGONISTS AND INHIBITORS (85) - Used with chemicals, drugs, and endogenous substances to indicate substances or agents which counteract their biological effects by any mechanism. (D)

CHEMICALLY INDUCED (83) - Used with diseases, syndromes, abnormalities, or symptoms caused by chemical compounds. (C, F3)

CLASSIFICATION (83) - Used for taxonomic or other systematic or hierarchical classification systems. (B-N)

COMPLICATIONS (83) - Used with diseases to indicate conditions that co-exist or follow. (C, F3)

DIAGNOSIS - Used for all aspects of diagnosis and assessment, including physical examination and prognosis. Excludes screening for which /prevention and control is used. The subheading /radiography is used for radiographic diagnosis. (C, F3)

DIET THERAPY (83) - Used with disease headings for dietary nutritional management. (C, F3)

DRUG EFFECTS (83) - Used with organs, regions, tissues, or organisms and physiological and psychological processes for the effects of drugs. (A, B, not B2, F1-F2, G4-G11)

DRUG THERAPY - Used with disease headings for the treatment and prevention of disease by the administration of drugs or chemicals. Excludes immunotherapy and treatment with biologicals for which therapy is used. (C, F3)

ECONOMICS (was FINANCE) (83) - Used for the economic aspects of any subject, including all aspects of financial management and fund raising. (C, E, F3-F4, G1-G3, I, J, L, N2-N4)

EDUCATION - Used for education and training in various disciplines and of various classes of persons. Prefer use with disciplines. (C, E, F, G1-G3, H-N)

EDUCATION, CONTINUING - Used for continuing education in various disciplines and of various classes of persons. Prefer use with disciplines. (C, E, F, G1-G3, H-N)

EDUCATION, GRADUATE - Used for graduate education in various disciplines and of various classes of persons. Prefer use with disciplines. (C, E, F, G1-G3, H-N)

EQUIPMENT AND SUPPLIES - Used with diagnostic or therapeutic procedures of specialties/disciplines for the development, utilization, or modification of apparatus, instruments, or equipment. (E, not E7, F2, F4, G1-G3, H, J, L)

ETIOLOGY (83) - Used with diseases for causative agents; including microorganisms, environmental and social factors, personal habits, genetics, etc. (C, F3)

EVALUATION - Used with non-disease headings (e.g. behavior mechanisms, physiological processes, programs, disciplines, classes of persons, facilities, and services) for evaluation and assessment. (E, F1-F2, F4, G2-G12, H, I2, J, L-N)

HISTORY - Used for the historical aspects of any subject. (B6, C-F, G1-G3, H-N)

INJURIES - Used with anatomic headings for wounds and injuries. (A, not A11, A12 or A16)

LEGISLATION AND JURISPRUDENCE - Used for laws, statutes, ordinances, government regulations, legal controversy, and court decisions. (B6, C-F, G1-G3, H-J, L-N)

MANPOWER (83) - Used with disciplines and programs for the demand, supply, distribution, recruitment, and use of personnel. (F4, G1-G2, H-J, L, N2-N4)

METHODS (was PROCEDURES AND TECHNIQUES) (83) - Used with techniques, procedures, and programs for methods. (E, not E7, F4, G1-G3, H-J, L, N)

NURSING (83) - Used with diseases for nursing care and techniques in their management; includes the nursing role in diagnostic, therapeutic, and preventive procedures. (C, E, F3, G8)

ORGANIZATIONS (83) - Used with disciplines and classes of persons for associated organizations, societies, agencies, etc. (C, G2, I1-I2, K-M, N2)

PHARMACODYNAMICS (87) - Used with drugs and exogenously administered chemical substances for their actions on tissues and organisms; includes effects upon metabolism, acceleration or inhibition of biological processes, and the mechanisms of action. (B6, D)

PHYSIOLOGY - Used with organs, tissues and cells for their normal function. Also used with physical process. (A, G7-G11)

PHYSIOPATHOLOGY - Used with organs, tissues, cell structures, and disease states for disordered function. (A, C, F3)

POISONING (84) - Used with drugs, chemicals, plants, and industrial materials for human or animal poisoning, acute or chronic, whether the poisoning is accidental, occupational, suicidal, by medication error, or by environmental exposure. (B6, D, J)

PREVENTION AND CONTROL (83) - Used with disease headings for increasing disease resistance, control of transmission agents, prevention and control of environmental hazards, and prevention and control of social factors leading to disease. Includes immunization and screening. (C, F1, F3, G3, I1)

PSYCHOSOCIAL FACTORS (83) - Used with diseases, techniques, and named groups for psychological, psychiatric, psychosomatic, social behavioral and emotional aspects. May be used with pregnancy. (C, E, not E7, F3, G, I1-I2, M, N1-N2)

RADIOGRAPHY (83) - Used with organs, regions, and diseases for x-ray examinations. Includes radionuclide imaging, angiography and x-ray tomography. Use for radiographic diagnosis. For ultrasonic diagnosis and magnetic resonance imaging use /diagnosis. (A, C)

RADIOTHERAPY (83) - Used with disease headings for the therapeutic use of ionizing radiation. (C)

REHABILITATION (83) - Used with disease headings and surgical procedures for restoration of function of the individual. (C, E4, F3)

STANDARDS (83) - Used with facilities, personnel, programs, and services for the development, testing, and application of standards of adequacy or acceptable performance. Used with chemicals or drugs for standards of identification, quality, and potency. Includes health or safety standards in industries or occupations. (D-E, F4, G1-G3, H-J, L, N)

SURGERY (83) - Used for operative procedures on organs, regions, or tissues, for the treatment of disease. (A, C, F3)

THERAPEUTIC USE (84) - Used with drugs, biological preparations, plants, and physical agents for their use in the prophylaxis and treatment of disease. (B6, D, H)

THERAPY (83) - Used with diseases for therapies other than drug therapy, diet therapy, radiotherapy, rehabilitation, or surgery for which subheadings exist. Also used for articles dealing with multiple therapies. (C, F3)

TRANSMISSION (87) - Used with bacteria, diseases, and viruses for mode of transmission. May use DISEASE/ transmission but prefer COMMUNICABLE DISEASES. (B3, B4, C)

TRANSPLANTATION (83) - Used with organs, tissues, or cells for transplantation. (A)

TRENDS (83) - Used for the manner in which a subject changes with time, whether past, present, or future. (C, E, F3-F4, G1-G3, I, L, N)

UTILIZATION (83) - Used with equipment, programs, facilities, and services for discussions of how and how much they are used. (E, F4, G1-G3, H-J, L, N)

TERTIARY HEADINGS

A second group of subheadings exist that are called the tertiary headings. They are distinguished from the topical subheadings (or secondary headings) in two ways. First, they can either be linked directly to a CINAHL main heading OR they can be linked to the end of a main heading/topical subheading combination. For example:

REHABILITATION NURSING/Great Britain or
REHABILITATION NURSING/Education/Great Britain.

And secondly, they can be used in combination with any CINAHL main heading as appropriate.

These tertiary headings fall into two basic subcategories — age groups and geographic headings. Age group exceptions /in pregnancy and /in utero function like other age group headings.

AGE GROUPS

IN ADOLESCENCE - Used for occurrence during adolescence, 13 to 18 years.

IN ADULTHOOD - Used for occurrence during adulthood, 19-44 years.

IN INFANCY AND CHILDHOOD - Used for occurrence during infancy and childhood, birth to 12 years.

IN MIDDLE AGE - Used for occurrence during middle age, 45-64 years.

IN OLD AGE - Used for occurrence during old age, 65 years+.

IN PREGNANCY - Used for occurrence during pregnancy, from conception through puerperium.

IN UTERO - Used for occurrence within the uterus.

GEOGRAPHICS

GEOGRAPHIC NAMES can be used both as subject headings and subheadings. A complete list of the geographics appears in the alphabetic and tree structures in the subject heading list.

DESCRIPTORS

These parenthetical statements generally indicate the form of the article indexed (anecdote, editorial, research, etc.) or the presence of some sample form or data (exam questions, pictorial, statistics, etc.). In a citation, the descriptor appears in parentheses after the author's name. Generally, no more than two descriptors will be assigned to one article. A complete list follows:

ANECDOTE (indicates article is a brief narrative often informal in tone)

BIBLIOGRAPHY (indicates the article contains a substantive bibliography — i.e., a list of books, journal articles, AVs, etc., on a topic or by a specific author. For articles about preparation of or use of bibliographies see CINAHL main heading: BIBLIOGRAPHY.)

BIOGRAPHY (indicates article is a biography)

BOOK (indicates a book)

CARE PLAN (indicates presence of a care plan — i.e., a plan developed to assure consistent care of an individual patient or for a specific disease. For articles about preparation of or use of care plans see CINAHL main headings: NURSING CARE PLANS or PATIENT CARE PLANS.)

CASE STUDY (indicates article is a review of a particular condition, disease or administrative problem)

CEU (indicates an article which has been approved by a professional society for continuing education credit. May be dated or non-dated. CEU articles will be double indexed under the main heading EDUCATION, CONTINUING (CREDIT) as well as under the appropriate subject terms.)

COMMENTARY (indicates article is a commentary — i.e., a comment on a previously written article)

COMPUTER PROGRAM (indicates article contains a part of a computer program. For articles about the preparation and use of computer programs, see CINAHL main heading: SOFTWARE.)

EDITORIAL (indicates article is an editorial)

EXAM QUESTIONS (indicates article includes sample exam questions. For articles about the preparation of or use of examinations see CINAHL main heading: EDUCATIONAL MEASUREMENT.)

FORMS (indicates article includes sample(s) of forms. For articles about the preparation of or use of forms in general see CINAHL main heading: DOCUMENTATION.)

INTERVIEW (indicates article is an interview)

NURSING DIAGNOSES (indicates article contains nursing diagnoses as a substantive part of a care plan, case study, or in relation to the subject being discussed. For articles about nursing diagnosis, use CINAHL main heading: NURSING DIAGNOSIS.)

OBITUARY (indicates article is an obituary)

PAMPHLET (indicates a pamphlet)

PICTORIAL (indicates article includes substantive photographs or pictures)

PROTOCOL (indicates article contains written plans specifying the methods to be followed in performing various procedures or in conducting research)

QUESTIONNAIRE (indicates article includes sample(s) of questionnaires. For articles about the preparation of or use of questionnaires see CINAHL main heading: QUESTIONNAIRES.)

RESEARCH (indicates article is substantive in nature — includes data collection, methodology, discussion of results, etc. For articles on how to conduct research or the value of research, etc., see CINAHL main headings: RESEARCH; RESEARCH, MEDICAL; RESEARCH, NURSING.)

RESPONSE (indicates article has been written in response to a commentary)

REVIEW (indicates article is or contains a substantial review — i.e., a review of the literature)

STATISTICS (indicates article contains substantive statistical data applicable outside the context of a research study. For articles about the collection or preparation of use of statistics see CINAHL main heading: STATISTICS.)

TABLES/CHARTS (indicates article includes substantive tables and/or charts)

TEACHING MATERIALS (indicates article includes examples of various teaching/educational materials, primarily used for patient instruction)

Note: Survey as a descriptor was deleted in 1989. The subject heading, SURVEYS, is used to indicate an article contains or is about a survey.

GUIDE *to* SUBJECT HEADING CHANGES

NEW CINAHL SUBJECT HEADINGS

with PREVIOUS INDEXING

These subject headings represent concepts that are new to CINAHL as well as concepts that were previously indexed under different (usually broader) CINAHL headings. If the heading in the "previously indexed under" column still exists, it is printed in upper case letters. If the heading has been deleted and is no longer a legitimate CINAHL term, it appears in lower case. See page 18 for *NEW CINAHL SUBJECT HEADINGS—NURSING DIAGNOSES*.

NEW SUBJECT HEADINGS *with* SCOPE NOTES

Listed here are the new subject headings which have scope notes. For a complete list of new headings see *New CINAHL Subject Headings with Previous Indexing*.

ACTIVITY INTOLERANCE (NURS DIAG): Abnormal responses to energy-consuming body movements involved in required or desired daily activities

ALTERED CARDIOPULMONARY TISSUE PERFUSION (NURS DIAG): Chronic deficit in blood supply to the cardiopulmonary system relative to metabolic needs

ALTERED CEREBRAL TISSUE PERFUSION (NURS DIAG): Chronic deficit in blood supply to the brain relative to metabolic needs

ALTERED FAMILY PROCESSES (NURS DIAG): Inability of family system (household members) to meet needs of members, carry out family functions, or maintain communications for mutual growth and maturation

ALTERED GASTROINTESTINAL TISSUE PERFUSION (NURS DIAG): Chronic deficit in blood supply to the gastrointestinal system relative to metabolic needs

ALTERED GROWTH AND DEVELOPMENT (NURS DIAG): The state in which an individual demonstrates deviation in norms from his/her age group

ALTERED HEALTH MAINTENANCE (NURS DIAG): Inability to identify, manage, or seek help to maintain health

ALTERED NUTRITION, LESS THAN BODY REQUIREMENTS (NURS DIAG): Insufficient intake of nutrients to meet metabolic needs. Consider also specific disorders ANOREXIA NERVOSA; BULIMIA

ALTERED NUTRITION, MORE THAN BODY REQUIREMENTS (NURS DIAG): Excess caloric intake relative to metabolic need

ALTERED NUTRITION, POTENTIAL FOR MORE THAN BODY REQUIREMENTS (NURS DIAG): Presence of risk factors for excess caloric intake relative to metabolic need

ALTERED ORAL MUCOUS MEMBRANE (NURS DIAG): Change in secretions, membranes, or structures of the oral cavity producing pain or discomfort

ALTERED PARENTING (NURS DIAG): Inability of nurturing figure(s) to create an environment which promotes optimum growth and development of another human being

ALTERED PERIPHERAL TISSUE PERFUSION (NURS DIAG): Chronic deficit in blood supply to the extremities relative to metabolic needs

ALTERED RENAL TISSUE PERFUSION (NURS DIAG): Chronic deficit in blood supply to the kidneys relative to metabolic needs

ALTERED ROLE PERFORMANCE (NURS DIAG): Change, conflict, denial of role responsibilities or inability to perform role responsibilities

ALTERED THOUGHT PROCESSES (NURS DIAG): Discrepancy between manifested cognitive operations and expected cognitive operations for chronological age

ALTERED TISSUE PERFUSION (NURS DIAG): Chronic deficit in blood supply to a part relative to metabolic needs

ANXIETY (NURS DIAG): Vague, uneasy feeling, the source of which is often nonspecific or unknown to the individual

BATHING-HYGIENE SELF CARE DEFICIT (NURS DIAG): Inability to bathe body or body parts

BLOOD GLUCOSE SELF-MONITORING: Self evaluation of whole blood glucose levels outside the clinical laboratory

BODY IMAGE DISTURBANCE (NURS DIAG): Negative feelings or perceptions about characteristics, functions, or limits of body or body parts

BOWEL INCONTINENCE (NURS DIAG): Involuntary passage of stool

BREAST ENGORGEMENT: For articles about the physical problems of breast engorgement see LACTATION DISORDERS

CHOOSING (NURS DIAG) (NON-CINAHL): A human response pattern involving the selection of alternatives

CHORIONIC VILLI SAMPLING: A method for diagnosis of fetal diseases by sampling the cells of the placental chorionic villi for DNA analysis, presence of bacteria, concentration of metabolites, etc.

CHRONIC LOW SELF ESTEEM (NURS DIAG): Long standing negative self evaluation/feelings about self or self capabilities

CHRONIC PAIN (NURS DIAG): A state in which an individual experiences pain that continues for more than 6 months in duration

COHORT STUDIES: Studies in which subsets of a defined population are identified. These groups may or may not be exposed to factors hypothesized to influence the probability of the occurrence of a particular disease or outcome

COLLABORATION: Pooling of resources and ideas within or across disciplines for innovation, problem solving, etc.

COLONIC CONSTIPATION (NURS DIAG): The state in which an individual's pattern of elimination is characterized by hard, dry stool which results from a delay in passage of food residue

COLONY COUNT, MICROBIAL: Enumeration of viable, isolated bacterial or fungal cells or spores capable of growth on solid culture media. Used by clinicians for measuring patients' microbial load

COLORECTAL NEOPLASMS: Cancer of the colon and rectum. A clinical entity, not a synonym for COLONIC NEOPLASMS and RECTAL NEOPLASMS

COMMUNICATING (NURS DIAG) (NON-CINAHL): A human response pattern involving sending messages

CONSTIPATION (NURS DIAG): Periodic episodes of hard stools or absence of stools not associated with a pathological state

CONTUSIONS AND ABRASIONS: For external injuries; for internal see WOUNDS AND INJURIES or specific

DECISIONAL CONFLICT (NURS DIAG): The state of uncertainty about course of action to be taken when choice among competing actions involves risk, loss, or challenge to personal life values

DEFENSIVE COPING (NURS DIAG): The state in which an individual repeatedly projects falsely positive self evaluation based on a self protective pattern which defends against underlying perceived threats to positive self regard

DIARRHEA (NURS DIAG): Loose, fluid stools not associated with a pathological state

DIVERSIONAL ACTIVITY DEFICIT (NURS DIAG): Decreased engagement in recreational or leisure activities

DRESSING-GROOMING SELF CARE DEFICIT (NURS DIAG): Inability to dress or groom self

DRUG TESTING: Tests used for detecting/screening substance abuse. Includes urine toxicology

DRY EYE SYNDROMES: Corneal and conjunctival dryness due to deficient tear production, predominantly in menopausal and post-menopausal women

DYSFUNCTIONAL GRIEVING (NURS DIAG): Extended length (unresolved grieving) or severity of grieving process related to an actual or perceived loss or change in pattern of relationships

DYSREFLEXIA (NURS DIAG): The state in which an individual with a spinal cord injury at T7 or above experiences a life threatening uninhibited sympathetic response of the nervous system to a noxious stimulus

EVALUATION STUDIES: Use for studies determining the effectiveness or value of processes, personnel, equipment, and drugs

EXCHANGING (NURS DIAG) (NON-CINAHL): A human response pattern involving mutual giving and receiving

EXTRACORPOREAL MEMBRANE OXYGENATION: Application of a life support system that circulates the blood through an oxygenating system, which may consist of a pump, a membrane oxygenator, and a heat exchanger

EYE ENUCLEATION: The removal of the eyeball leaving eye muscles and remaining orbital contents intact

FAMILY COPING, POTENTIAL FOR GROWTH (NURS DIAG): Family member has effectively managed adaptive tasks involved with the client's health challenge and is exhibiting desire and readiness for enhanced health and growth in regard to self and in relation to the client

FATIGUE (NURS DIAG): An overwhelming sustained sense of exhaustion and decreased capacity for physical and mental work

FEAR (NURS DIAG): Feeling of dread related to an identifiable source which is perceived as a threat or danger to the self

FEEDING SELF CARE DEFICIT (NURS DIAG): Inability to feed self when food available

FLUID VOLUME DEFICIT (1) (NURS DIAG): Decreasing circulating volume due to failure of regulatory mechanisms

FLUID VOLUME DEFICIT (2) (NURS DIAG): Decreasing circulating volume due to active loss of body fluid

FLUID VOLUME EXCESS (NURS DIAG): Increased local, or total body, fluid volume

FUNCTIONAL INCONTINENCE (NURS DIAG): The state in which an individual experiences an involuntary, unpredictable passage of urine

GAMETE INTRAFALLOPIAN TRANSFER: A technic for assisted conception in infertile women with normal fallopian tubes. The protocol consists of hormonal stimulation of the ovaries, followed by laparoscopic follicular aspiration of oocytes and semen which are transferred by catheterization into the fallopian tubes

HEALTH SEEKING BEHAVIORS (NURS DIAG): The state in which an individual in stable health is actively seeking ways to alter personal health habits and/or the environment in order to move toward a higher level of health

HEALTH SERVICES NEEDS AND DEMAND: Health services required by a population or community; also health services that the population or community is able and willing to pay for. Includes the identification and assessment of the needs as measured by objective criteria and standards

HOMOSEXUALS: For articles which discuss both male homosexuals and lesbians

HOPELESSNESS (NURS DIAG): A subjective state in which an individual sees little or no alternatives or personal choices available and is unable to mobilize energy on own behalf

HYPERTHERMIA (NURS DIAG): A state in which an individual's body temperature is elevated above his/her normal range

HYPOTHERMIA (NURS DIAG): The state in which an individual's body temperature is reduced below his/her normal range

IMPAIRED ADJUSTMENT (NURS DIAG): The state in which an individual is unable to modify his/her life-style/behavior in a manner consistent with a change in health status

IMPAIRED GAS EXCHANGE (NURS DIAG): Disturbance in oxygen or carbon dioxide exchange in lungs or at cellular level

IMPAIRED HOME MAINTENANCE MANAGEMENT (NURS DIAG): Inability to independently maintain a safe, growth-promoting immediate environment

IMPAIRED PHYSICAL MOBILITY (NURS DIAG): Limitation of ability for independent movement within the environment

IMPAIRED SKIN INTEGRITY (NURS DIAG): Break in skin integrity

IMPAIRED SWALLOWING (NURS DIAG): The state in which an individual has decreased ability to voluntarily pass fluids and/or solids from the mouth to the stomach

IMPAIRED VERBAL COMMUNICATION (NURS DIAG): Reduced or absent ability to use language in human interaction

INEFFECTIVE AIRWAY CLEARANCE (NURS DIAG): Inability to effectively clear secretions or obstructions from respiratory tract

INEFFECTIVE BREASTFEEDING (NURS DIAG): The state in which a mother, infant, or child experience dissatisfaction or difficulty with the breastfeeding process

INEFFECTIVE DENIAL (NURS DIAG): The state of a conscious or unconscious attempt to disavow the knowledge or meaning of an event to reduce anxiety/fear to the detriment of health

INEFFECTIVE FAMILY COPING, COMPROMISED (NURS DIAG):

Usually supportive primary person (family member or close friend) providing insufficient, ineffective, or compromised support, comfort, assistance, or encouragement which may be needed by client to manage or master adaptive tasks related to health challenge

INEFFECTIVE FAMILY COPING, DISABLING (NURS DIAG):

Behavior of significant person (family member or primary person) disables own capacities and client's capacities to effectively address tasks essential to either person's adaptation to the health challenge

INEFFECTIVE INDIVIDUAL COPING (NURS DIAG):

Impairment of adaptive behaviors and problem-solving abilities for meeting life's demands and roles. Methods of handling stressful life situations are insufficient to control anxiety, fear, or anger

INEFFECTIVE THERMOREGULATION (NURS DIAG):

The state in which an individual's temperature fluctuates between hypothermia and hyperthermia

INFLAMMATORY BOWEL DISEASES: Chronic non-specific disorder of unknown etiology. CROHN DISEASE and COLITIS, ULCERATIVE are also available**INTRAVENOUS NURSING:** Use for discipline**JOINT APPOINTMENTS:** An appointment in which there is mutual agreement by an educational institution and clinical agency to appoint persons to positions in both agencies**KNOWLEDGE BASES:** Used for the database of knowledge that underpins artificial intelligence programs**KNOWLEDGE DEFICIT (NURS DIAG):** Inability to state or explain information or demonstrate a required skill related to disease management procedures, practices and/or self-care/health-care-management**LIPECTOMY:** Removal of localized subcutaneous fat deposits by suction curettage or blunt cannulization in the cosmetic correction of obesity and other esthetic contour defects**MAXILLA:** The upper jaw only. Do not use /injuries; prefer precoordinated heading, MAXILLOFACIAL INJURIES**MILK EXPRESSION:** Do not use /equipment and supplies; prefer heading BREAST PUMPS**NONCOMPLIANCE (NURS DIAG):** Nonadherence to a therapeutic recommendation following informed decision and expressed intention to adhere or attain therapeutic goals**NURSING DIAGNOSES (NON-CINAHL):** Includes NANDA nursing diagnoses**NURSING MINIMUM DATA SET:** A minimum set of items of information with uniform definitions and categories concerning the specific dimension of nursing, which meets the information needs of multiple data users in the health care system**NURSING PRACTICE:** Practice based on scientific principles, established standards of care, and the nursing process. Includes all areas of nursing services, e.g. administration, education, research, and care. Do not use /economics; prefer NURSING CARE/economics**NUTRITIONAL SUPPORT:** Use for general articles discussing all aspects of nutritional support**OXIMETRY:** Measurement of oxygen saturation of the blood by recording the amount of light transmitted by reduced versus oxygenated hemoglobin**PAIN (NURS DIAG):** Verbal report and presence of indicators of severe discomfort (pain)**PARENTAL ROLE CONFLICT (NURS DIAG):** The state in which a parent experiences role confusion and conflict in response to a crisis**PARENTING EDUCATION:** For articles about educating parents on other issues, use PARENTS/education**PERCEIVED CONSTIPATION (NURS DIAG):** The state in which an individual makes a self-diagnosis of constipation and ensures a daily bowel movement through abuse of laxatives, enemas, and suppositories**PERINATAL NURSING:** Nursing care of childbearing families who are at risk for increased maternal, fetal, or neonatal mortality**PERSONAL IDENTITY DISTURBANCE (NURS DIAG):** Inability to distinguish between self and nonself**PNEUMONIA, PNEUMOCYSTIS CARINII:** Consider also ACQUIRED IMMUNODEFICIENCY SYNDROME/complications**POST ANESTHESIA CARE:** Do not use /nursing; prefer POST ANESTHESIA NURSING**POST TRAUMA RESPONSE (NURS DIAG):** The state of an individual experiencing a sustained painful response to an unexpected extraordinary life event**POTENTIAL ACTIVITY INTOLERANCE (NURS DIAG):** Presence of risk factors for abnormal response to energy-consuming body movements**POTENTIAL ALTERED BODY TEMPERATURE (NURS DIAG):** The state in which an individual is at risk for failure to maintain body temperature within normal range**POTENTIAL ALTERED PARENTING (NURS DIAG):** Presence of risk factors during prenatal or child-rearing period which may interfere with process of adjustment to parenting**POTENTIAL FLUID VOLUME DEFICIT (NURS DIAG):** Presence of risk factors for decrease in body fluid**POTENTIAL FOR ASPIRATION (NURS DIAG):** The state in which an individual is at risk for entry of gastrointestinal secretions, oropharyngeal secretions, or solids or fluids into tracheobronchial passages**POTENTIAL FOR DISUSE SYNDROME (NURS DIAG):** A state in which an individual is at risk for deterioration of body systems as the result of prescribed or unavoidable musculoskeletal inactivity**POTENTIAL FOR INFECTION (NURS DIAG):** The state in which an individual is at increased risk for being invaded by pathogenic organisms**POTENTIAL FOR INJURY (NURS DIAG):** Presence of risk factors for bodily injury**POTENTIAL FOR POISONING (NURS DIAG):** Presence of risk factors for accidental exposure to, or ingestion of, drugs or dangerous products in doses sufficient to cause poisoning

POTENTIAL FOR SUFFOCATION (NURS DIAG): Presence of risk factors for accidental asphyxiation in air available for inhalation

POTENTIAL FOR VIOLENCE, SELF-DIRECTED OR DIRECTED AT OTHERS (NURS DIAG): Presence of risk factors for self-directed or other-directed physical trauma

POWERLESSNESS (NURS DIAG): Perceived lack of control over a situation and a feeling that actions will not significantly affect an outcome

PREGNANCY DISCOMFORTS: For discomforts caused by normal physiological changes of pregnancy

PREGNANCE, HIGH RISK: Consider also specific Pregnancy Complications Terms

PREGNANCY-INDUCED HYPERTENSION: High blood pressure after 20 weeks gestation with no prior history of hypertension. For articles about chronic or pre-existing hypertension in the pregnant patient, see **HYPERTENSION in pregnancy**

PROTECTIVE CLOTHING: Outfit designed and worn to prevent spread of disease

PULSE OXIMETRY: Measurement of oxygen saturation in an artery by recording modulations of a transmitted beam of light caused by the pulse

RAPE-TRAUMA SYNDROME (NURS DIAG): Forced violent sexual penetration against victim's will and without victim's consent

RAPE-TRAUMA SYNDROME, COMPOUND REACTION (NURS DIAG): Victim experiences symptoms described for rape-trauma (physical or psychiatric illness, reliance on alcohol or drugs)

RAPE-TRAUMA SYNDROME, SILENT REACTION (NURS DIAG): Presence of signs and symptoms but without victim's mentioning to anyone that rape has occurred

REFLEX INCONTINENCE (NURS DIAG): The state in which an individual experiences an involuntary loss of urine, occurring at somewhat predictable intervals when a specific bladder volume is reached

REPETITION STRAIN INJURY: Caused by overuse or overexertion of any activity. For stress fractures, coordinate with **FRAC-TURES**

RHYTIDOPLASTY: Plastic surgery performed, usually by excision of skin, for the elimination of wrinkles

SARCOMA, KAPOSI'S: Consider also **ACQUIRED IMMUNODEFICIENCY SYNDROME/complications**

SELF ESTEEM DISTURBANCE (NURS DIAG): Negative feelings or conception of self (social self, self-capabilities)

SEXUAL DYSFUNCTION (NURS DIAG): Perceived problem in achieving desired satisfaction of sexuality

SITUATIONAL LOW SELF ESTEEM (NURS DIAG): Negative self evaluation/feelings about self which develop in response to a loss or change in an individual who previously had a positive self evaluation

SLEEP PATTERN DISTURBANCE (NURS DIAG): Disruption of sleep time causing discomfort or interference with desired life activities

SPIRITUAL DISTRESS (NURS DIAG): A disruption in the life principle which pervades a person's entire being and which integrates and transcends biopsychosocial nature

STATE BOARD EXAMINATIONS: Exams required by the state for professional licensure in any discipline

STRESS INCONTINENCE (NURS DIAG): The state in which an individual experiences an involuntary loss of urine of less than 50 ml occurring with increased abdominal pressure

SYMPTOMS: For complications or diagnosis of specific diseases, see **Specific Diseases/complications or diagnosis**

TEACHERS: Elementary and secondary only. For college level and above, see **FACULTY**

TOILETING SELF CARE DEFICIT (NURS DIAG): Inability to toilet

TOTAL INCONTINENCE (NURS DIAG): The state in which an individual experiences a continuous and unpredictable loss of urine

TUMOR LYSIS SYNDROME: Lymphoproliferative disorder caused by anticancer drugs

URINE INCONTINENCE (NURS DIAG): The state in which an individual experiences involuntary passage of urine occurring even after a strong sense of urgency to void

URINARY RETENTION (NURS DIAG): The state in which an individual experiences incomplete emptying of the bladder

VENTILATOR WEANING: Technique for effecting the transition of the respiratory failure patient from mechanical ventilation to spontaneous ventilation

VISION SCREENING: Application of tests and examinations to identify visual defects or visual disorders occurring in specific populations, as in school children, the elderly, etc. Differentiate from **VISION TESTS**, which are given to evaluate/measure individual visual performance not related to a specific population
